Kloud Note S 10.1"

POWER OFF

*KloudnoteS*

The pen and paper-like reading and writing experience, no strobe, no fear of glare, long time use of effective eye care, pre-set sets of note templates, record more comfortable, notes never lost, a large amount of content permanently saved, ultra-long standby life, enjoy the industry's leading electric paper notepad brings a new experience of use.

14 reasons to choose Geniatech Kloud Note S 10.1"

Quad-core high performance processor	10.1" eye protection ink screen	**1200*1600** HD resolution	39 sets of pre-set note templates
		Class 4096 electromagnetic pressure sensing	Hand + pen dual touch control
5 weeks long standby time	**35 hours** of continuous work	Real-time cloud synchronization	**Wireless Screen Sharing**
Optional OCR **handwriting to text**	Optional ASR **recording to text**	**Self-developed software and hardware Intellectual Property**	SDK/API custom development for industry customers

Main product features

- ## 10.1" eye protection ink screen

  Adopting a new generation of 10.1-inch e-ink eye protection screen with a resolution of up to 1600*1200p, which is still clearly visible under direct outdoor sunlight.

- ## Book-like reading experience

  Like a book reading experience, effectively improve the prolonged viewing of electronic products brought about by dry eyes, eye acuity, eye fatigue, effective care of your vision health.

- ## Class 4096 electromagnetic pressure sensing

  Using 4096 level electromagnetic pressure-sensitive pen, passive and wireless, with high touch precision, bringing a smooth writing experience like pen and paper.

- ## 64GB large storage, large space more comfortable

  More than 20,000 e-books can be stored, your on-the-go electronic library, all you want to read can be stored in the electric paper book, even if a long journey, you can easily select your favorite books.
  *The actual capacity of the product will be slightly less than 64GB due to system file occupancy, and each book is calculated at about 2M storage.

- ## Quad-Core CPU, 1GB memory, run more smoothly

  Powered by Quad-Core Cortex-A35 processor, Android operating system, 1GB large running memory, reading page turning and handwritten notes more smoothly.

- ## A variety of note templates to record more comfortable

  As many as 39 sets of pre-set note templates are available to meet the needs of different scenarios and make your recordings more convenient.
  *Year, month, day plan, meeting minutes, to-do list, large and small squares, field and meter grid, field and meter grid, pentagram, Cornell, SWOT

- ## Writing, note-taking, recording and transcribing, all of which are proficient

  It supports synchronous recording when taking notes, transcribing the recording to text with one click, and transcribing the written text to text, and editing and saving the transcribed text, synchronizing it in the cloud in real time, and exporting or sharing it with one click.

- ## Read markers, one click export

  You can mark your favorite text passages and add reading notes while reading, and support one-click export and cloud synchronization.

- ## Support notes multi-cloud synchronization

  Notes support multi-device cloud synchronization, you can access the content of notes anywhere, anytime, no longer afraid of losing notes.

- ## Support multiple e-book file formats

  Support PDF, DOC, RTF, TXT, FB2 and more than a dozen e-book file formats, can be transferred to the electric paper book through WiFi, Bluetooth, USB and other ways to achieve office learning efficiency with half the effort.

- ## Supports wireless screen sharing

  Support wireless screen casting function, you can cast the content on the ePub to display devices such as computer, projector or TV, and open the meeting sharing mode with one click.

- ## Super long battery life, get rid of battery life anxiety

  3200mAh large capacity battery, Type-C interface, more convenient charging, a charge can standby for weeks, completely get rid of the range anxiety and frequent charging trouble.

- ## 2.4G+5G dual-band WiFi

  Support 2.4GHz+5GHz dual-band WiFi for faster network transmission speed.

- ## Self-developed hardware and software integration , custom development available

  Self-developed new custom private model + unique open architecture APP, can provide SDK/API custom development for industry customers

- ## Optional OCR handwriting to text

  With OCR function, you can convert text to editable TEXT, and OCR files can be synchronized to the cloud.

- ## Optional ASR recording to text

  With ASR function, the recording content can be converted to editable TEXT text, and ASR files can be synchronized to the cloud.

产品参数	
Screen	10.1" e-ink glass screen
Resolution	1200x1600 (200 dpi)
Touch method	Capacitive + electromagnetic dual touch
Stylus	Class 4096 pressure-sensitive pen
Processor	PX30 Quad-Core Cortex-A35 1.3GHz
Memory	2G LPDDR4
Storage	64G EMMC
Wi-Fi	Wi-Fi(2.4GHz+5GHz)
Bluetooth	Bluetooth 4.2
4G Module	None
Camera	None
Fingerprint unlock	None
HOME button	None
Horn	Single speaker
Microphone	Dual MIC
File format support	PDF, EPUB, TXT, HTML, RTF, FB2, DOC, MOBI
Image formats	PNG, JPG, TIFF, BMP
Connection Port	Type-C (support OTG, support audio output)
Operating System	Android 8.1
Battery	3200mAh Li-ion battery
Charging	5V2A
Continuity	WiFi version: 5 weeks of standby time and 35 hours of continuous operation
Size	237 x 168 x 6.0mm
Weight	385g
Color	Black, Blue
Certification	CE, FCC
Accessories	Color box packaging, USB cable x 1, electromagnetic pen x 1
